SUMMARY

- Results-driven Project Manager adept at leading projects from inception to completion, defining scope, and managing budgets. Proven ability to coordinate cross-functional teams, ensure timely delivery within scope, and act as the primary liaison between stakeholders, clients, and technical teams for high-quality outcomes.

EXPERIENCE

- Led 5+ software development projects with cross-functional teams of 8-12 members, ensuring delivery within established timelines and scope.
- Improved project delivery timelines by 25% through effective Agile practices, guaranteeing successful outcomes.
- Acted as the primary point of contact, coordinating effectively between clients, developers, and designers to bridge communication gaps.
- Assisted in planning and executing IT projects, focusing on defining initial scope and managing project documentation.
- Managed project budgets and resources to ensure adherence to financial constraints and project objectives.

PROJECTS

- Managed end-to-end delivery of a scalable E-commerce Platform, defining project scope, establishing timelines, and ensuring timely releases and high stakeholder satisfaction.
- Coordinated the successful deployment of a critical Healthcare App across multiple hospitals, acting as liaison between technical teams and end-users.
